Metnor Great Yarmouth was formed by the acquisition of Great Yarmouth Hydraulics and have been trading since 1985.

We are specialist suppliers of Pressure Equipment Rental, Sales and Services. We design, manufacture and adapt pressure testing equipment which is exported to more than 40 countries all over the world servicing the Oil, Gas and Renewable Industries.

We hold a vast stock of recorders, gauges, manifolds, relief valves, flanges, hoses, gas boosters, transfer pumps, thickness testers, OPS skids, test pumps, injection pumps, dead weight testers and comparators with a working range from low pressure to 30,000 psi / bar.

Our head office is in Great Yarmouth with a satellite base in Aberdeen and we have partnership agreements in place with companies servicing the Middle East and Far East countries.

Our reputation is built upon the quality and reliability of our equipment and our unsurpassed service levels. The can-do attitude we have means the company is used to achieving customers' requests and strict deadlines with no job too small or too large we will supply the most up-to-date, reliable equipment with every piece being tested, calibrated and certified ready to use.

We are a supply company and as a matter of course are available 24hrs / 7 days a week.

Metnor Great Yarmouth has been accredited since 1994 and onwards to BS EN ISO 9001 Quality Management Systems.

Metnor Great Yarmouth operates from a building with purpose built pressure test bays, stores and temperature controlled laboratory approved to ISO / IEC 17025 Competence of Testing and Calibration.

Whether it's a short term hire or long term rental we will supply the most up-to-date, reliable equipment, packed safely in hard cases to arrive on site in perfect condition to get the job done.

All rental equipment is tested, calibrated, tagged and certified prior to delivery.

# RENTAL

## PUMPS

TEST PUMPS  
INJECTION PUMPS  
TRANSFER PUMPS  
GAS BOOSTER PUMPS  
HAND PUMPS

## INSTRUMENTATION

CHART RECORDERS  
GAUGES  
DIGITAL INDICATORS  
MANOMETERS

## TEST EQUIPMENT

DEADWEIGHTS  
TEMPERATURE DRY BLOCKS  
COMPARATOR  
PD8010

## PRESSURE

PRESSURE RELIEF VALVES (PRV)  
TEST MANIFOLDS  
OVER PRESSURE SKIDS (OPS)  
PRESSURE MAINTAINING VALVES  
HOSE ASSEMBLIES

## ACCESSORIES

THICKNESS TESTERS  
FLANGES  
GAS REGULATORS  
AIR FILTER SKIDS

# SALES

Supplier and stockist for major manufacturers of pressure test equipment consisting of: Hose Assemblies, Valves, Fittings, Gauges, Tubing, Hammer Unions, Pumps, Recorders and many more. We hold a vast range of valves, gauges & fittings of various material options including Brass, Steel, Stainless Steel with pressures upto 60,000psi.

# CALIBRATION / REPAIR

Calibration of client owned equipment and Management services.  
Repair service for hydraulic power units and all major pump manufactures.

# PRESSURE TESTING SERVICES

To ensure safety, reliability and leak tightness of pressure systems Metnor pressure testing service offers both hydrostatic and pneumatic testing. Third party Safe Contractor approved, testing services are available for both in-house (four be-spoke pressure test bays) or on-site following customers own specifications and health and safety policies.
